

INSIDER THREAT: PROTECTING AGENCY I.P.

Recent figures show employee data theft in Recruitment is significant.

Here, we outline the key findings from our global Recruitment Consultant survey, then introduce the measures agency leaders can use to monitor and block the transfer of data outside of their firm's control.

70%

of recruitment consultants rated data as their most important asset or one of their most important assets.

64%

of recruitment consultants said they know someone who has taken data from an agency they have worked for.

63%

of recruitment consultants said it would be easy or very easy to take data from the agency they currently work for.

PROTECTING AGENCY I.P.

	DEVICE MANAGEMENT	VIRTUAL DESKTOP
Solution Description	An intelligent remote monitoring and management service for corporate devices.	A Windows desktop accessed virtually, by any device, in a central managed location.
Security Philosophy	Limiting device capabilities to the minimum and closely monitoring necessary tasks with AI.	Eliminates the need for data to be physically present on an end user's device, meaning it's not shared or copied.
How Does It Work?	The 'Big Brother of IT' Our team are on hand to block the obvious and investigate the suspicious in real-time.	The 'Netflix of IT' Work is streamed but never owned or downloaded – license cancelation instantly revokes all access.
Useful Features	<ul style="list-style-type: none">✓ Website blocking✓ Application blocking✓ Print screen blocking✓ USB blocking✓ Email monitoring✓ Email rule-based blocking*—Copy/paste blocking (from virtual desktop to local device)*—On-premise application hosting, accessible securely from anywhere*—Watermarking on screen	<ul style="list-style-type: none">✓ Website blocking✓ Application blocking✓ Print screen blocking✓ USB blocking✓ Email monitoring✓ Email rule-based blocking✓ Copy/paste blocking (from virtual desktop to local device)✓ On-premise application hosting, accessible securely from anywhere✓ Watermarking on screen
Best For	A cost-effective protection solution.	Giving consultants a full range of abilities while ensuring maximum protection.
